

USBF TV

USB Connection System for Harsh Environment

Description

USB Field allows you to use a standard USB 2.0 connection in harsh environments :

- Sealed against fluids and dusts (IP67)
- Shock, Vibration and Traction resistant
- No cabling operation in field and no tools required
- Mechanical Coding / Polarization (2 positions)
- Improved EMI protection

With USB Field, you can insert a **standard USB 2.0 cordset** into a metallic plug which will protect it from shocks, dust and fluids.

No hazardous in-field cabling and grounding !

**Transform your USB
cordset into a Harsh
Environment Connector !**

This metallic plug is connected into a receptacle, using a Tri Start Thread coupling mechanism (MIL-DTL-38999 series III type) with anti-decoupling device for high vibrations.

On the receptacle side, one A USB receptacle is soldered onto a PCB allowing for the following back terminations :

- another USB-A receptacle
- solder : 4 tined holes on the PCB to solder your wires

The USB 2.0 cordset shielding is transmitted to the USB receptacle through grounding fingers.

For an outstanding EMI protection, the conductive plated shells (Ni, Cd) with metallized receptacle inserts, transmit the shielding to the connector shells and finally to the panel.

Applications

- Embedded Computers
- Data Acquisition and Transmission in harsh environment

For :

- Railways
- Battelfield Communication Systems
- Navy Systems

DOC-000046-ANG-C Mai 2005

Main Characteristics

Data Transmission

- USB Specification 2.0

Data Rate : Up to 480 Mb/s for High Speed USB

Mechanical

- Tri Start Thread coupling mechanism (MIL-DTL-38999 series III type) with anti-decoupling device
- 2 mechanical Coding / Polarization possibilities by the user (receptacle insert rotation)
- USBF TV plug retent° in the receptacle : 100 N in the axis
- Mating cycles : 500 to 1500

Environmental Protection

- Sealing (when mated) : IP67 (Temporary immersion)
- Salt Spray : 48 h with Nickel plating
> 500 h with Olive Drab Cadmium
- Fire Retardant / Low Smoke : UL94 V0 and NF F 16 101 & 16 102
- Vibrations : 10 – 500 Hz, 10 g, 3 axes : no discontinuity > 1micro s
- Shocks : IK06 : weight of 250 g drop from 40 cm [15.75 in] onto connectors (mated pair)
- Humidity : 21 days, 43°C, 98% humidity
- Temperature Range : - 55°C / +85°C

Can be used with most of the USB cordset Brands : No tools required

Assembly Instructions

Plug Assembly

1. Only if you need a full sealing (IP67) : Install the white sticker around the plug, covering the 4 little holes of the overmolding
2. Insert the black O Ring around the front face of the USB A plug. This O Ring will ensure the connection sealing.
3. Insert the USB cordset into the metallic backshell
4. Insert laterally to the cable the retention spacer (this spacer is soft, in order to adapt to different shapes of overmolding) and slide the overmolding of the USB-A plug into this retention spacer
5. Insert laterally to the cable the the friction ring
6. Choose the right coding (2 positions) and insert the USB-A plug into the protective plug. Reference is main key.
7. Screw the backshell on the plug body. A spanner can be necessary to fully screw it, and the connection to the receptacle can help.

Important Note : The connection sealing is not done by the black retention spacer (which is slotted), but by the front face ORing (see 2.)

Receptacle Assembly

Insert the USB module **from the rear**. Reference is main key.
Beware to have a coding compatible with the coding you used for the plug : on front view, the **white shapes** in the USBs **must be on the same side**.

To remove the USB module, insert the removal tool USBF ODE from the Front, and push back the module.

ООО «НИОКРсистемс» - это оперативные поставки широкого спектра электронных компонентов отечественного и импортного производства напрямую от производителей и с крупнейших мировых складов. Реализуемая нашей компанией продукция насчитывает более полумиллиона наименований.

Благодаря этому наша компания предлагает к поставке практически не ограниченный ассортимент компонентов как оптовыми, мелкооптовыми партиями, так и в розницу.

Благодаря развитой сети поставщиков, помогаем в поиске и приобретении экзотичных или снятых с производства компонентов.

Наша компания это:

- Гарантия качества поставляемой продукции
- Широкий ассортимент
- Минимальные сроки поставок
- Техническая поддержка
- Подбор комплектации
- Индивидуальный подход
- Гибкое ценообразование
- Работаем по 275 ФЗ
